### Burnside.

Wm. McCulloch, Jr., and Bruce Sheils spent a part of last week in Calgary taking in the Hart-Parr and International Tractor demonstrations.

Miss Keisha Gardiner, who has been visiting her sister, Mrs. Lloyd Hehn, left last Friday to visit another sister in Calgary.

The Lone Pine Women's Institute are holding their annual whist drive and bazaar in the Lone Pine Hall on March 17th. Keep the date in mind.

Messrs. Harry Pearson and Bill McCulloch Jr. spent Sunday evening at Noah Eckel's.

Friday, April 1st, will be the event of the spring season in Burnside and Lone Pine society. The "Big Four" are putting on an "Old-Fashioned Dance" in the Lone Pine Hall, when old-fashioned costumes will be worn and old-fashioned music furnished by a splendid orchestra. Don't forget the date. Hunt up your father and mother's wedding finery and watch for announcement of prizes and list of events in a later issue.

There was a well attended dance in Lone Pine Hall on Friday, the 18th.

In last week's issue of the Pioneer the Burnside correspondent for some reason omitted to give any account of two special business and social gatherings in Lone Pine Hall during the early part of this month.

The annual meeting of the Jutland Burnside Farmers' Community Hall was held on February 2nd, with a very large attendance, when all the business of the year was reviewed and discussed. We congratulate the old hall board on its careful scrutiny of the district's interest and for having raised in the hall since the opening last February over \$300, which has been turned over and used to completely pay off the outstanding bills, and has also made a good start in cleaning up the bonds against the hall. The two retiring trustees were Mr. Wm. Ahlgren and Jas. Shields, the latter not wishing to stand for re-election. The candidates for election were Wm. Ahlgren, Edward Anderson, Kaspar Sanfort and Jacob Braun. The two former gentlemen were elected by a good majority.

The entire board of five stands as follows: Messrs. Ahlgren, Rist, Hehn, Anderson, and Weber.

On the evening of February 9th, at Lone Pine Hall, the local U.F.A. put on an enjoyable program consisting of musical selections, readings, a comic monologue, and a humorous mock trial "The Great Pumpkin Case." In spite of much "flu" in the neighborhood a goodly number assembled from far and near.

The sum of \$64 was raised for the benefit of U.F.A. to help carry out the workings of the Local throughout the year.

After the program, a bountiful lunch was served and dancing was enjoyed for a couple of hours. All report a very enjoyable evening.

Regular meetings of the U.F.A. take place in the Hall on the 2nd Monday of each month at 8 p.m., where all the important and vital interests of the farmer are discussed from time to time. At the next regular meeting the president and Delegate, G. A. Burns, will give a report of the U.F.A. Convention held in Edmonton the latter part of January, when over 500 delegates assembled for four days, from all parts of the province. Everybody welcome.

A dance and pie social will be held in the Lone Pine Hall on Tuesday, March 8th, with the Holton Orchestra in attendance.

Mr. C. R. Liesimer and family, who have spent the winter in Calgary since their sale, are back on their farm again to take up farming operations this spring.

John Hewins, veterinary surgeon has located at the Rosebud Hotel, Didsbury. All calls promptly attended to.—Advt.

## Health Broken—Lost 66 lbs. Now Well, Won Back 82 lbs.

Ottawa merchant, formerly city officer, rundown by kidney trouble. Wasted from 201 to 135 lbs.

Tanlac restored robust health; now weighs 217 lbs. and feels fine

Philip Sequin's grocery at 285 St. Patrick St., is well known in Ottawa. Mr. Sequin was formerly a police officer. When ill-health seized him he lost weight rapidly. "I had kidney trouble for 6 years," he tells, "and was given up as a hopeless case. Many times, from sheer weakness, I have fallen where I stood, and had to be helped to my feet."

"Pains racked my entire system, especially my back, which felt like splitting. Needless to say, I could neither eat nor sleep normally. Weak spells and nervousness would leave me trembling all over. I faded away from 201 to 135 lbs., and tried endless treatments and remedies in those 6 years, without result."

"I had begun to despair, and when a friend advised Tanlac I was skeptical. But one month's regular use of this wonderful medicine convinced me that I was on the road to health. I kept on taking Tanlac and to my delight and surprise it made me a new man in a surprisingly short time."

Now I weigh 217 lbs., eat and sleep like a healthy boy, and feel like a different man altogether."

If neglect or overwork are taking toll of your health, try Tanlac. It is nature's own tonic, made from roots, barks and herbs. Your druggist has it. Over 52 million bottles sold.

## It's All In The State Of Mind

If you think you are beaten, you are;  
If you think you dare not, you don't;  
If you think you'd like to win, but you can't;  
It's almost a "cinch" you won't;  
If you think you'll lose, you've lost,  
For out in the world you'll find  
Success begins with a fellow's will—  
It's all in the state of mind.

Full many a race is lost,  
Ere even a race is run,  
And many a coward falls  
Ere even his work's begun.  
Think big, and your deeds will grow,  
Think small and you fall behind,  
Think that you can and you will;  
It's all in the state of mind.

If you think you are outclassed, you are;  
You've got to think high to rise;  
You've got to be sure of yourself before  
You can ever win a prize.  
Life's battles do not always go  
To the stronger or faster man;  
But sooner or later, the man who wins  
Is the fellow who thinks he can.

Throughout Western Canada people are now eagerly looking forward to the breakup of winter and are beginning to plan for the season's work which lies ahead. The farmer is giving thought to the crops he will sow, arranging to overhaul his machinery, looking into the matter of good, clean seed, and is becoming impatient for the frost to come out of the ground in order that he may begin turning over the furrows. The farm wife is beginning to think of her poultry and vegetable garden. In the cities and towns plans are being laid for building operations, civic officials are preparing programmes of improvements, men and women are studying seed catalogues and dreaming of their gardens to be. Everywhere, everybody is looking forward.

People, too, are asking themselves the question: "What will the year bring forth?" Generally, a feeling of optimism prevails. Perhaps never before in Canada's history has there been such unanimity among the heads of all banks, insurance companies, financial and industrial concerns, railway executives, and business men,—usually of the most cautious and conservative type,—in predicting that Canada is on the eve of remarkable, unprecedented development. There is a hopeful feeling everywhere.

It is believed that 1927 will be a year of opportunity, although nothing in the nature of a "boom" is expected or desired. Western people have surely learned the lesson that substantial, permanent progress can only rest on strong foundations; that to build on paper is to invite disaster. For this reason there is danger that some people will be timid in grasping opportunities which present themselves even though they are in a sound position to take full advantage of them. Their very timidity, their lack of confidence in themselves, or in their country, may be their own undoing.

The lines quoted at the opening of this article are, however, not directed only to the attention of those who are fearful of launching out on some enterprise this year, but to all the people of Western Canada at this time as they plan for the year's work ahead.

It is true today, as it has always been true, that the person who thinks he is beaten, is beaten. The beginning of success is the "will" to succeed; the determination never to acknowledge defeat. This, too, is our British birth-right. Many and many a time in our Empire's history the outlook has been dark, defeat seemed inevitable, but our people would never admit it and fought on and on until victory was achieved and success crowned their efforts.

One of the factors in enabling George Young to swim Catalina channel and win the big prize offered was his confidence in himself. He was confronted with obstacles from the beginning of his journey from Toronto to California and all along the way, but he was convinced of his ability to win, and win he did. Courage and perseverance were his watchwords. He possessed the right state of mind.

Western Canadians, with their country of wonderful resources as an asset, can accomplish almost anything to which they make up their minds and to which they devote their energies with real determination to achieve. Amazing things have been accomplished in the past, but the present offers equally great opportunities and still greater things can be done and richer rewards won if our people are convinced they can do these things and make up their minds to do them.

The sunlight of happiness seldom falls upon a shady reputation. Many a man's peck of trouble comes in liquid form.

## Total Eclipse of the Sun

Unusual Phenomena to be Witnessed In England on June 29

English astronomers are preparing to view on June 29, the first total eclipse of the sun which has visited England in 203 years and the last one until 1999.

The belt of country in which the eclipse will be total is only 80 miles wide, running from the north of Wales in the west to Hartlepool on the North Sea in the east. So popular is the interest in the unusual event that several railroads will run special trains to various points in the belt.

The total eclipse begins over England at 5:25 a.m., Greenwich mean time, and is visible in its totality from 21.7 seconds in the west to 24.5 seconds in the east.

Astronomers here point out that with a total eclipse, such as will be seen this year, the corona is visible, which is not the case with partial eclipses.

Several parties of astronomers are planning expeditions to Norway, where the visibility will be better than in England. Three Greenwich astronomers will take two telescopes and two spectroscopes to a station in Yorkshire, and other parties will go to both the west and east coast.

## 2 Years' Backache Subdued by "Nerviline"

"Backache was the bane of my life, and for two years I was so lame as to be unfit for work," writes E. S. Sloane, from Georgetown. "While in Smith Bros.' Drug Store, I heard of Nerviline being a wonderful pain-destroyer, so I decided to try Nerviline. Thanks to Nerviline, my two-years' backache was rubbed away, and to-day I am perfectly well."

All those who suffer from weak, aching backs, those whose muscles are stiff, whose joints are swollen, let them try Nerviline—the liniment that never fails. 35c at all dealers.

### Want Free Port

#### Urge Free Port at Ocean Terminal of H. B. Read

The establishment of a free port at the ocean terminal of the Hudson's Bay Railway will be urged by some Progressive members of the House of Commons when the annual debate on the railway takes place. One member has expressed the conviction that if Port Nelson (or Fort Churchill—if the terminal is finally established there) were made a free trade port, the cost of construction of Canada's railway to the Northern Seas could be wiped out in a few years and the financial success of the road assured.

The number of motor accidents will not decrease until automobiles have less horsepower and drivers have more horse-sense.

### Is Considered a Miracle

#### Body of Rumanian Priest Dead Two Centuries Is Well Preserved

A glass casket to display the well preserved body of a priest dead two hundred years has been ordered by the peasants of the Cluc district, Rumania. They look upon the preservation of the body around which six wooden coffins have crumbled as a miracle. Doctors have tried to explain to the peasants why the body is in good condition, but they prefer to accept the theory of supernatural.

To pay for the expensive glass casket an admission fee is to be charged of those viewing the body.

One way to get rid of unpleasant people is to begin giving them advice.

### FELT VERY WEAK

#### Had No Ambition and Had to Rest Frequently

Mrs. Wm. J. Griffin, Tehkumah, Manitoulin Island, Ont., is one of the many thousands of women who was run-down and bloodless, and who has found new health through Dr. Williams' Pink Pills. She says:—"For a number of years I felt very weak and had no ambition. I found it very difficult to do my housework and had to rest frequently. As time passed my condition grew decidedly worse, and my feet and legs were badly swollen. My husband told the doctor of my condition, and he gave me medicine. Then my baby came and the doctor attended me. He said I had scarcely any blood in my body—that it had turned to water. I continued taking his medicine for a time, but did not feel that it was doing me any good. Then I started to take Dr. Williams' Pink Pills. In a short while I felt better, and after taking the pills for a couple of months I felt like a new person. Where my work used to be a drag upon my strength I enjoy doing it now, and I will always recommend Dr. Williams' Pink Pills to weak people."

If you will send your name and address to The Dr. Williams' Medicine Co., they will mail you a little book called "Building Up the Blood," which contains many health hints. You can get the pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## RESOLUTION ASKS FOR LOW RATES ON ALBERTA COAL

Ottawa.—A national policy by which Ontario and other parts of Central Canada will be supplied with Canadian coal was discussed in the House of Commons on a resolution proposed by T. L. Church (Conservative, Toronto Northwest).

Mr. Church's resolution asked for lower rates on Alberta coal and a duty against coal from the United States, "to insure an all-British supply for Canada, and afford adequate protection for coal mines."

Mr. Church said the present Canadian coal policy was ready-made and pro-American and blamed the directors of the Canadian National Railways for the fact that most of the coal used in Ontario comes from United States mines.

"I am surprised, Mr. Speaker, that you have not ruled this motion out of order, as the question is before the railway commission. Is this a free Parliament or is it not?" Mr. Church asked, and proceeded to emphasize what he claimed was the desire of the people of Canada to deal speedily with this question of coal supply. "I am not criticizing Sir Henry Thornton personally," said Mr. Church, "but the east country that allows this thing to go on."

The rate of \$9 a ton offered by the railways for bringing Alberta coal to Ontario, did not meet the need. It must be lower than that.

"You will never make any headway on this question as long as the present directors of the C.N.R. are handling it," Mr. Church said, "or the present minister of railways." He said the reference to the railway commission was made a year ago, and the indications were that there would be no decision from it in time for any movement of coal next summer.

Hon. Charles Stewart, minister of interior, said the coal question had been receiving considerable thought and study on the part of the Government.

Mr. Stewart read at some length from a report of the fuel board on the entire fuel situation of Canada. At the conclusion, Mr. Stewart pointed out that the Government was actually developing a real fuel policy, which had reduced the importations of American coal by 2,000,000 tons a year since 1923.

## General Rates Higher In East

**West Favored in This Respect Says C.P.R. Man**

Ottawa.—A comparison between rates and conditions in Eastern and Western Canada was dealt with specially on the railway rate case before the railway commission by George Stephen, assistant freight traffic manager of the C.P.R.

In the West, said Mr. Stephen, grain rates to Fort William were by far the lowest in the world. In the East grain rates, except those on Western grain moving for export, were much higher than those in the West. Livestock enjoyed a basis of rates in both territories which was lower relatively than that applied to any other class of freight.

In the East, he said, it had been found necessary to give special consideration to manufactured products and merchandise and numerous rates had been put in for the purpose of fostering industry and meeting market competition. Going into particulars, he stated that the class rates in the East were as high as or higher than the class rates in the West up to distances of about 100 miles beyond which the western rates were for the most part higher, though on some classes western rates were lower even up to 200 miles. For example, the sixth class rate which applies to agricultural implements and was therefore very important in the West was, in the West, equal to or less than that in the East up to 160 miles.

Constantinople.—Turkish official organs say a treaty prolonging the present commercial agreement between Turkey and the U.S. will be signed shortly.

## May Reduce Cattle Rates to Britain

Possible in Near Future Says Deputy Minister of Agriculture

Winnipeg.—A reduction in ocean freight rates in cattle shipments to the British Isles looms as a possibility in the near future, Dr. J. H. Grisdale, Deputy Minister of Agriculture, stated in an address here before the Western Livestock Union. Dr. Grisdale declares that, as the result of a recent conference with officials of the various steamship lines, an understanding has been reached that the question of reduced rates would be fully considered.

Any downward readjustment, he asserted, would depend upon the recommendations of steamship representatives in the Dominion. If a \$5 reduction could be obtained it would mean the difference between a profit or an actual loss on shipments of Canadian cattle.

While stressing the importance of enlarging the home market for Canadian farm produce every effort should be made to cultivate and extend trade with Great Britain, Dr. J. H. Grisdale said.

"I do not look for any wild rush of United States legislators to lower the tariff bars against our products. On the other hand, I believe Britain is in a position to take all the surplus Canada can produce, providing the quality is there," he added.

The attitude of British traders toward Canadian beef was becoming more favorable each year. Experience was teaching them that Canadian stock cattle was of a high standard. The shipper on this side, however, did not appear to be availing himself of the opportunity as statistics showed that only 80,000 head had been shipped to Britain in 1926, compared with 635,000 head from Ireland.

## France Refuses to Attend Conference

Will Not Take Part in U.S. Parley on Disarmament

Washington.—Hopes of the Washington government for an effective naval limitation conference have been jolted severely by a polite rejection from France and a forecast that Italy also will decline to participate. With the declination of France the opinion here was that Italy would accept and still make possible the gathering of representatives of sufficient number of nations to bring practical results in the timing of armaments not touched upon at the Washington conference.

A semi-official communiqué issued in Rome, however, announced that Italy would follow the lead of France in demurring to the proposal of President Coolidge for the conference leaving as a matter of conjecture the next step of the United States Government in seeking methods of obtaining the agreements which is hoped for.

Tentative consideration had been given to a possible four-power conference participated in by the United States, Japan, Italy and Great Britain even before the unfavorable French reply was received. Acceptance of the Coolidge invitation were considered as having been assured from Japan and Great Britain, but obviously the attitude of Great Britain may now be affected by the position of France and Italy.

For the moment it is unlikely that any plan of further action will be formulated here in the advance of the British and Japanese formal replies.

## Passenger Held Liable

Seattle.—Holding that a passenger in an automobile which fatally injures any persons is as much to blame as the driver of the car, Judge A. W. Hawkins sentenced Mrs. Christine Hopkins to from one to 20 years in state penitentiary. She was convicted of manslaughter on charges resulting from the death of Lois Ames, 11. The driver of the car disappeared.

## Fog Delays Belgian Rulers

London.—Clearing of the fog enabled the King and Queen of the Belgians to make a delayed departure for home via Dover. They had hoped to fly back, but conditions prevented. The royal visitors came to London to attend the Flemish picture exhibition. They declared they had enjoyed their visit despite the unfavorable weather.

## REVENUE FROM FREIGHT BETTER ON THE PRAIRIES

Ottawa.—Reasons for the passage of a great amount of Canadian grain from the Canadian west to the Atlantic ports over the United States railroads and through United States ports, were discussed before the Board of Railway Commissioners investigating freight rates.

The discussion arose during the examination of George Stephen, assistant freight traffic manager of the Canadian Pacific Railway. Commissioner Oliver, who called attention to the quantity of grain being shipped via the United States, termed the situation a "very serious national problem."

Counsel for the C.P.R. contended that the movement of grain within Canada had greatly increased during the period of open navigation and counsel for the Maritime Provinces added that the available ocean tonnage was the deciding factor. Exporters took their grain to the port where facilities were ready to receive it.

Mr. Stephen pointed out certain characteristics of the freight business in British Columbia. One of the most important of these was the large percentage of the territory which was absolutely non-traffic producing.

This was accounted for by mountainous conditions and by the fact that at least 53 per cent. of the population resided in seaboard cities. He compared this with the condition in the prairie provinces where the population was well distributed, the latest census figures indicating that the rural population of Manitoba was 56 per cent. of the total. In Saskatchewan the rural population comprised 70.5 per cent. of the total and in Alberta 61.7 per cent. This meant that in the prairie provinces the distribution of freight was evenly placed and there were no barren stretches such as existed in British Columbia.

## Iron Deposits in Italy

Rome.—Iron deposits found near Leghorn may prove to be of such size that Italy can rank with England and Germany in industrial power. The country has no iron now and has been importing all the metal used.

## Lepers in New York

New York.—There are twenty-one lepers at large in New York city, Dr. Louis Harris, health commission said. These cases are under surveillance always and are not capable of transmitting the disease he added.

## Planning New Building

Government Needs Seven to House Federal Departments in Ottawa

Ottawa.—Heralded in local newspapers as marking the commencement in a pretentious scheme of Federal Government structures on Wellington street, the thoroughfare fronting the parliament buildings and known as Federal Row, an item of \$500,000 for "new departmental buildings" was contained in the estimates tabled by the minister of finance.

The Citizen says in this connection, that seven buildings in all with an estimated value of \$15,000,000 are to be erected to house federal departments in the capital, but that only one is to be built at present. The cost of this first structure is estimated at \$2,500,000 and erection is expected to be commenced shortly, the \$500,000 item already tabled being considered sufficient to meet any expenditures this year.

Plans of the buildings, its size and the departments to have their headquarters therein must await consideration of the cabinet council.

## Fewer Wage-Earners

Only Four Out of Ten Work for Living in U.S. is Report

New York.—Less than four out of ten persons in the United States in 1925, were working for a living, according to a study made public by the National Industrial Conference Board.

A decline in the number of gainfully-employed persons in proportion to total population in the United States between 1910 and 1920, and a further 1920 and 1925, are reported. Relatively larger school and college enrolments and changes in immigration are credited with being among the chief factors in producing the trend.

## Reform of Senate

New Members Will Give Support to Move in This Direction

Ottawa.—All Canadian senators appointed during the past two years have given an assurance of support of such measures of Senate reform, in conformity with the requirement of the constitution, as may be introduced by the Liberal administration.

This declaration is given in an answer tabled by the Government in the House in reply to a question by John Evans (Progressive, Rosetown).

## Home Bank Creditors

Ottawa.—The sum of \$222,000 of the \$3,000,000 voted by Parliament for the relief of Home Bank creditors, remains unpaid because certain claims have not yet been dealt with by the commissioners, according to a Government answer to questions in the House of Commons this afternoon.

## THE QUESTION OF ALTA. RESOURCES NOW SUB JUDICE

Ottawa.—Discussion of Alberta natural resources was ruled out of order in the House. The point taken was that under the reference to the Supreme Court, which is to be heard in March, the question was sub judice.

T. L. Church, Conservative, North West Toronto, appealed against the ruling, but could not find a seconder. Mr. Church first gave the name of Mr. McGregor, South York, as his seconder.

"No," said Mr. McGregor. "I ask any of the Toronto members to second my motion," Mr. Church went on. "I ask Mr. Matthews or Mr. Anderson (two Toronto members) to second it."

But no one seconded Mr. Church's appeal and it went by the boards.

The question arose on two separate motions. First, Dr. Edwards, Frontenac-Addington, had a motion that natural resources should be transferred to the prairie provinces at the earliest possible moment.

At the outset, Speaker Lemieux questioned whether the motion was in order in view of the reference to the Supreme Court and opened the way for discussion of the point by the House. Discussion proceeded and eventually the motion was ruled out of order. Then Mr. Church endeavored to move another motion of his own on Alberta natural resources.

He argued that his motion was different from that of Dr. Edwards. But the Speaker ruled the Church motion out of order likewise. Then came Mr. Church's appeal and his failure to find a seconder.

The Edwards motion came first before the House.

In opening the discussion, Speaker Lemieux pointed to the reference on the Alberta bill now before the Supreme Court and said in his opinion the question was sub judice. However, he would ask advice of the House as to whether this motion was in order.

Dr. Edwards explained that the question referred to the Supreme Court was whether section 17 of the Alberta act was ultra vires of the Dominion Parliament. That referred to Alberta alone, whereas his resolution applies to all the prairie provinces. This very decided difference, he contended, made his resolution in order.

Hon. Ernest Lapointe, Minister of Justice, declared the matter could not be debated on the grounds that it was a matter now before the Supreme Court.

## Prescription Sent By Radio

Directions Given by Surgeon Saved Sailor's Eyesight

New York.—How radio directions for the manufacture and use of an electric magnet saved the eyesight of a sailor several hundred miles at sea is related here. Particles of iron that had penetrated the iris of the right eye of Peter Kruif, a seaman on the American Diamond Line freighter Tomalva, were removed by use of a soft iron bar enclosed by a coil of wire and charged with electricity from the ship's radio set. The prescription was flashed by an eye surgeon on another ship.

## Department of S.C.R. Report

Ottawa.—The Department of Soldiers Civil Re-establishment spent \$54,003,458 in the last fiscal year, according to the department's report tabled in the House of Commons by Hon. Dr. J. H. King, the minister. There was a reduction of 432 in the number of patients receiving treatment from the previous year, the total being 3,097.

## Safety in Air Trade

London.—"London streets are far too dangerous so I'm selling my taxi and going into the air taxi business," says Harold Solomon, who is studying aviation.

## No Duty on Used pianos

Ottawa.—A duty is not being levied under the Anti-Smuggling Act on used pianos entering Canada, according to a reply to a question by John Millar tabled in the House.

Canadian Wolves Feature U.S. Exhibit

Timber wolves are the latest recruits to the rank of the Chateau Frontenac Dog team at Quebec City. Arthur Beauvais, driver of the team, caught the three cubs in the wilds of Ontario and after much patience has subdued their wild natures enough to let them run with the husky dogs. The wolves are only a few months old and beautiful specimens, sleek and alert with the shifty cunning look of their kind. The photograph shows Douglas Haines, of the tourist department

## CONGRATULATIONS, MR. MAYOR.

The publication of the town balance-sheet two weeks ago has resulted in many congratulatory remarks being made to the Town Council. In addition to paying interest and part of the principal on the debentures, the city fathers wound up the year with the respectable surplus of over \$10,000.00, a result which should be eminently satisfactory to every ratepayer.

The mayor and secretary are primarily responsible for this condition, because upon them more than others, rests the responsibility of economical management.

In a secondary sense, the members of the Council, too, have done their share, and if sundry ratepayers have not had all their demands granted or their requirements attended to, they at least have now the satisfaction of seeing the town lessen its obligations.

A reduction in the debt of any town is worthy of record, and one hears considerable satisfaction being expressed in Didsbury now lining up with its neighbours in this respect.

### LET'S PLAY THE GAME

Don't be selfish. "Live and let live" is a pretty fair slogan for us all to adopt in this old game of life. The fellow who plays a lone hand never thinks or interests himself in his neighbors, may for a while profit by his selfishness, but sooner or later he will fall by the roadside just as sure as we live. And, besides, hasn't it been proven time and time again that team work in any adventure, whether it be in business, sports or pleasure, is bound to win the day? Certainly it has, and will never be otherwise, because no one individual or no one industry can upset the basic principles

upon which the world was founded. Co-operation today is the key-word more so than ever before. Then why not play the game fair with your local merchants? They are entitled to a living, the same as anyone else, and just as long as they play the game with you, give you a fair price, service and quality goods, it's an obligation you owe them to trade with them.

Make your slogan this year "My Community First," and you will be rewarded far greater in the end than you will be by the continued patronage of outside concerns. All your home town merchants ask is an opportunity to serve you. Will you give them this chance?

In addition to the milder weather prevailing, there are other signs of the approach of spring, one of them being the arrival of a carload of implements for W. Teskey, whom we observed on Tuesday busily engaged in unloading.

Under the influence of a warmer sun and a mild breeze, the snow and ice is gradually disappearing and bare spots here and there indicate that Mother Earth, too, is coming to life and sharing with the residents her delight at the departure of King Winter.

The Y.W.C.T.U. will hold a medal contest and pageant on March 4th in the Opera House.

Rev. H. Clay will commence on Friday, March 4th, a series of addresses for women at St. Cyprian's Church, and will continue these weekly throughout Lent.

The Women's Guild of St. Cyprian's will hold their next meeting on Wednesday, March 2nd, instead of March 4th. This alteration in the date is made owing to Rev. Clay giving an address in the church on Friday.

The Olds Canadian Club are offering a prize of ten dollars for the best essay submitted from pupils of grades VII and VIII in schools in the Olds inspectorate. All particulars can be obtained from the secretary at Olds.

There will be an entertainment, box social, and dance held in Rugby School on Friday evening, March 4th. Proceeds for the piano fund.

On Friday, February 18th, the C.G.I.T. and the C.S.E.T. groups were invited out to Mr. Norman Clarke's residence. There were about twenty-five boys and girls in the party and it took a hay rack to accommodate them all. The opening ceremonies and the business part of the regular mid-week meetings of both groups were gone through, and were followed by games and music. Mrs. Clarke served a lovely lunch, and everyone had a swell time. We surely appreciate it, Mr. and Mrs. Clarke.—Contributed.

### "SO THIS IS LONDON."

A delightful piece of play-writing

To tell the story of this delightful piece of play writing from the pen of Arthur Goodrich, would be spoiling a most enjoyable evening for the crowd will no doubt go to see it next Saturday, the 26th at the Opera House here. With the large stage here, the management say that the exact same performance, with all the equipment as used in the big cities will be presented, and from present appearances, there won't be an empty seat in the house when the curtain rises, and that is as it should be when an opportunity such as the present occurs.

## Wedding

HOLMES-TAYLOR-A very pretty wedding was solemnized by the Rev. Herbert Clay in St. John's Church, Olds, on Wednesday, February 16, the contracting parties being Mr. Louis Burns Holmes of Didsbury and Miss Dorothy May Taylor of Olds.

The wedding was choral, and the bride, daintily attired, was escorted up the church by her father, Mr. R. H. Taylor, to the strains of the "Wedding March," played by Mrs. Duke, who presided at the organ.

The bride, who carried a beautiful bouquet, was attended by her sister, Margery, while the groom had Mr. Bobbie Taylor as his best man. The mother of the bride was also present as one of the witnesses and subsequently signed the register. There was a good attendance of well-wishers.

Their home, we understand, will be near Didsbury, where the bridegroom farms.

The bride, who is quite popular was the recipient of a number of nice presents, including one from St. John's Sunday School, where she taught. The St. John's Women's Guild also gave her a "shower" of useful presents.

A flock of spotted ponies were seen going south past Sunday afternoon. They must have broken loose from some where. Wilbert Siden met with an accident Monday night when he fell off his pony, cutting a gash in his head about an inch and a half long.

The U.F.A. met at the Lone Pine hall last Monday night and everybody enjoyed a long talk on the pool by Mr. Wm. Davies.

Mr. David Jenkins went to work for Mr. Harold Tighe last week.

## Mountain View.

On Monday evening, February 21st, the Mountain View W. I. met at the home of Mr. and Mrs. R. P. Fulton, who are leaving the district shortly. Roll call was answered with verses on Canadianization and National Events, after which Miss Mildrum, teacher of Gore School, gave an excellent paper on the history of the Union Jack and the Canadian ensign. The meeting was closed by singing, "God be with you till we meet again. The rest of the evening was spent in a social way by the neighbors present. Mrs. Fulton has been a member of this W. I. since coming to the neighbourhood and has been a faithful secretary for several years.

There will be a Whist Drive and Oyster supper in Mountain View hall on Wednesday, March 2nd, also a dance at the same place on Friday, March 11th.

## TOWN TOPICS

The first meeting of the Town Council took place on Monday night, the proceeding being largely taken up with forming new committees. Those present included Mayor Chambers, Councillors Tighe, Barrett, Guy and Reiber.

Mr. and Mrs. J. W. Phillipson are receiving hearty congratulations on the birth of a daughter.

On Wednesday, March 2nd, "The White Desert" will be produced at the Opera House. This is one of the best pictures at present on the circuit and is well worth seeing.

Two rinks took part in the Olds bonspiel last week, and each of them returned with two prizes. Those comprising the rinks were: Sinclair (skip) Edwards, Derby and Berscht, and Watt (skip) Huget, McGhee and Sanderman.

Mr. and Mrs. W. G. Liesemer returned on Friday last from a visit to the east.

## WORLD HAPPENINGS BRIEFLY TOLD

An increase in savings deposits in Canadian banks amounts to 54 million dollars.

Major-General J. H. O'Brien, who has resigned as chief of staff of Canadian forces, will remain in the service of the Empire.

The right to strike is abolished in Portugal by a decree promulgated by the Camona dictatorship. Dissolution of military units which took part in the recent rebellion is also ordered.

A remarkable coincidence was noted recently in the death of two Brantford, Ont., residents both named Mrs. Caroline Brown, both widows and both 83 years old.

William Turner, 94, of Barnstaple, England, has drawn an army pension for 50 years, a postoffice pension for 30 years and an old age pension for 18.

A committee will be appointed shortly to make all necessary arrangements in connection with Canada's diamond jubilee in July next. Premier W. L. Mackenzie King announced in the house.

President Coolidge signed the Lenroot-Taber Bill establishing sanitary provisions for the importation of milk into the United States. This new law widely affects importation of milk and dairy products from Canada to the United States.

Hon. Vincent Massey, Canadian Minister to the United States, will receive a salary of \$12,000 a year and will have a staff of nine persons, including secretaries, according to answers filed in the House of Commons.

Canada's national debt decreased by \$3,330,527 in January. The total net debt of the Dominion at January 31 last was \$2,340,033,663, almost an even forty million dollars less than a year ago. The statement was issued by the Department of Finance.

For the oldest inhabitants of Dover a dinner and tea was given in the town hall. Six hundred, all more than 70 years old—their combined ages totalling 46,233 years—attended. More than 700 other old townspeople who were unable to attend received gifts.

A new double violet with exceptionally large petals has been named after Princess Mary of England.

### A Benefactor

A public benefactor is one who helps people to be happy. Such a man was Dr. R. V. Pierce.

It is impossible to be happy if you are suffering—in pain or distress—ill. To restore health and strength to ailing people was Dr. Pierce's mission. During his lifetime, he gave to the world a priceless herbal remedy in his Favorite Prescription, for restoring the health of weak, nervous, over-worked women, and thereby increasing happiness in the home.

As a skilled physician, an honored citizen, Dr. Pierce was known far and near for integrity and fair dealing. His phenomenal success was due to the unquestioned purity of his medicines.

Women in every walk of life today say Dr. Pierce's Favorite Prescription has relieved them of nervousness, weakness and kindred ills. It is a reliable medicine made from roots and herbs, sold by druggists, in both fluid and tablets. Send 10¢ for trial pkg. tablets to Dr. Pierce's Laboratory, Bridgeburg, Ont.

### Made Book a Success

#### Confusion Over Names Brought Fame to British Author

How a book otherwise destined for failure, became a success owing to confusion in the public mind, is told by Mrs. E. L. Hill, public librarian, Edmonton, who has an autographed letter of R. D. Blackmore, author of "Lorna Doone." Despairing of selling the book, the English publisher shipped the greater part of the edition to the Antipodes in the hope that it might find a market there. Then came a peculiar coincidence. The Marquis of Lorne married the Princess Louise. The names Lorne and Lorna became confused in the public mind and the rumor went abroad that the Marquis of Lorne was in some way connected with the book. Interest was awakened and the demand for "Lorna Doone" became so great that the shipment had to be brought back.

#### Allowed to Fly Naval Flag

#### Official Church of British Admiralty is St. Martin's, London

With the exception of abbeys and cathedrals, the best-known church in the English-speaking world is probably St. Martin-in-the-Fields, London, to which a new vicar has just been appointed. The parish of St. Martin-in-the-Fields includes Buckingham Palace and St. James' Palace, and it is therefore the parish church of the King and Queen and Prince of Wales. There are in the church two Royal pews and also seats for the use of members of the Royal Household.

The church is not actually used by royalty as the parish church, as both Buckingham Palace and St. James's Palace have chapels of their own, but the King and Queen do on occasion attend services.

St. Martin's is recognized as the official church of the admiralty and thus allowed to fly the naval flag, the White Ensign.

The church during the war earned for itself the title of the church of the "Ever Open Door," as the crypt was kept open at night to house stranded soldiers and others. Even today the crypt is kept open so that wayfarers may have shelter till morning.

### "CASCARETS" FOR BOWELS, STOMACH, HEADACHE, COLDS

Clean your liver and constipated bowels to-night and feel fine

Get a ten-cent box now.

Are you keeping your liver, stomach and bowels clean, pure and fresh with Cascarets—or merely forcing a passage-way every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the constipated waste matter and poison in the bowels.

No odds how sick, headache, bilious and constipated you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little insides need a gentle cleansing, too.

Jimmy—"Sure; after this we'll turn out the light."

The city council of a city in India has prohibited the killing of mad dogs on the ground that they are the same as human lunatics and must be put into asylums.

### Could Not Sleep Heart and Nerves Were So Bad

Mr. Geo. Meek, Windsor, Ont., writes:—"I suffered with my heart and nerves and could not sleep at night for noises in my head. I managed to keep at my work somehow, until I began to have dizzy spells which got so bad I could not go to my work. I was afraid to go out any place, for very often I would stagger on my feet, and everything in front of me would turn black and fade away. While I was home sick a friend told me to take

I got four boxes and by the time I had used them the pains and noises in my head ceased and I was able to get a good night's rest. Although that was six years ago I have never been troubled with that complaint again."

Price 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### A Tower of Strength

The Sun Life Assurance Company of Canada, whose annual meeting has just been held, continues to transcend even its own records. This year, it passes the billion and a quarter mark, the total business paid for during the year being double that of 1924—only two years ago. The Sun Life has now more business in force than was held in Canada by all companies, local and foreign, at the outbreak of the war. The increase in new life assurance in the States and Canada last year was 6 per cent. over 1925, while that of the Sun Life was 37½ per cent.

Its assets were increased during the past year by over \$42,000,000, making the aggregate now over \$345,250,000. The Company's assets exceed its total business in force ten years ago. The rate of interest earned on its mean invested assets during the year reached the remarkable figure of 6.69 per cent. Government valuator appraised the increase in the excess of the Company's securities over cost price at over \$7,000,000.

From a total surplus of over \$20,000,000 substantial appropriations have been made to contingency, depreciation, and other accounts. The sum of \$5,371,000 has been added to the undivided profits. The total surplus over liabilities, contingency account and capital stock value is over \$34,000,000. The profits scale to policyholders has doubled in six years. For the seventh consecutive time the Company announces an increase in the scale of profits to policyholders.

The Sun Life Company has long since taken on the proportions of a great national asset, and today it ranks with the first half dozen major financial institutions of the Dominion, and in the forefront of the great insurance companies of the world.

**It's Quality Sells It.**—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

#### Claims Wonderful Discovery

Violinist Has Produced Varnish to Give Strad Tone to Ordinary Violin

Quiroga Losada, the well-known violinist, asserts that he has discovered a varnish which, when applied to the ordinary violin, will produce the same marvelous tonal qualities of a Stradivarius.

"I believe I have brought back to life the magnificent tones of the great master," Losada said.

"After years of research I came to the conclusion that it was in the varnish of the Stradivarius instruments that the secret of the amazing smoothness of sound rested, and I have produced a varnish which I hope soon to give free to the musicians of the world for the benefit of art."

Critics who have listened to instruments after watching him apply the varnish say the effect is almost unbelievable. With not more than thirty-five genuine Stradivariuses in existence, Losada's theory and formula, it is declared, are of great importance to music.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

#### Convenience for Travellers

To those contemplating a trip overseas, it will be interesting to learn that the Canadian Pacific Railway are operating through tourist sleeping cars from Winnipeg each week to connect with steamers sailing from West Saint John, N.B. Going direct to the ship's side, these cars assure connection and facilitate transfer from train to steamer. Reservations and bookings on these cars may be made with any ticket agent of the Canadian Pacific.

Frau E. von Isacescu, of Vienna, is said to be the first woman who attempted to swim the English channel. She made her first attempt in 1890.

Children suffering from worms soon show the symptoms, and any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient, not only for the eradication of worms, but also as a toner up for children that are run down in consequence.

Experience is a great teacher. It teaches us how to make other kinds of mistakes.

#### MAKING THE COMMUNITY CHRISTIAN (TEMPERANCE LESSON)

Golden Text: Have no fellowship with the unfruitful works of darkness, but rather even reprove them.—Ephesians 5:11.

Lesson: Galatians 5:13-25.

Devotional Reading: Ephesians 6:10-20.

#### Explanations and Comments

1. Christian Freedom, verses 13-15.—"Brothers," wrote Paul to the Galatians, "you are free from the Law but Christian liberty does not mean that you can do as you please."

"A Christian man is the most free lord of all, and subject to none; a Christian man is the most dutiful servant of all, and subject to all."—Martin Luther.

Liberty and license are not synonymous. Do not use your freedom as a license for indulging your lower impulses, but live in accordance with the law of love. "Flesh" is used here for "that element of man's nature which is opposed to goodness and makes for evil. It signifies the entire potency of sin." Through loving service for others," continued Paul, "you fulfil the whole divine law, which is, Thou shalt love thy neighbor as thyself." Paul here quotes Lev. 19:18.

"The freedom of the gospel consists in slavery to the law of love. The emergence from bondage through Christ is the passing into a sphere of life in which all the power should act under the dominion of the true motive—love."—G. Campbell Morgan.

Then remembering that the Galatians were prone to quarrel, Paul adds, "But if ye bite and devour one another—act toward one another like dogs or wild beasts—beware lest you destroy one another." "Mutual backbiting and hatred can only end in the destruction of one another's spiritual life."

Where two people quarrel both are at fault. "How do you keep yourself from being involved in the quarrel?" a member of a contentious church was asked. "By letting the angry person have all the quarrel to himself," was the reply.

**Radio Beacon Successful****Directed Course of Airplanes on Night Trip**

Successfully completing an experiment with radio-beacons a Stout-Ford three-motored plane landed at Detroit, Mich., after a flight to Dayton and return during which it was guided every foot of the route by directions received by radio. The flight was said to have been the first in history of aviation in which a plane has been guided perfectly by radio from separate fields, with the messages being tabulated in co-ordination.

It also marked the first use of the radio beacon for commercial aviation.

The beacon is a device by which flights are guided from the landing and starting fields by messages written in radio dots and dashes on a chart in the cockpit of the plane. The pilot was kept informed of his course by the information on his chart, the slightest deviation being registered.

**CHAPTER XXVIII.—Continued**

Lady Weymouth, a sprightly, eccentric young woman of that English sort which possesses two distinct characters, the one that shows and the one that is hidden, often as opposite as the poles, greeted Joanna effusively when the girl reached the villa verandas where the visitor had chosen to wait. Joanna was fond of Teddy Dorminster's sister, but it was a shy fondness she never quite revealed. Betty Weymouth was different, some way, from others of the crowd that flitted from villa to villa, that shone resplendent with big jewels and its velvet backs at the Casino, opera, or rode, in pairs, through the quiet lanes that wandered back from the main roads by the sea. She professed, openly, to be ever at the verge of indiscretion; but one was quietly confident that she never was. She was barely thirty, but repeatedly announced that she was in imminent danger of being arrested or being fined, or something like that, for having deliberately lopped off two years from her birth certificate. "One must knock off at least a year with every baby," she liked to declare, "and I've already got two." She was desperately unconscious of any attractiveness of worthwhileness upon the part of the earl, her brother, but often sat and talked with him for an hour at a time. Which is seldom the way between brothers of the Teddy Dorminster type and sisters of the Betty Weymouth kind. Joanna would have liked to have Lady Weymouth realize how fond she was of her, but was ever afraid Betty Weymouth would not take such appreciation seriously.

"I am all eagerness to know about your fete," the visitor said at once, "for that is all I hear whispered about. It's terribly exciting, you know, to be doing something that is whispered about. I've been trying ever since I came down from London to get someone to drop their voices about me, but they won't. I put on a scandalous affair with Michael, that night you were with us at the Opera, when you presented Mr. Willmore, but I've never heard an echo. You're so fortunate! The night before you took

just a little dash in a car with him and whispers were so thick you could cut them."

"A whisper doesn't count for much, though, does it?" Joanna asked the ebullient Betty Weymouth. "It's rather like a cocktail without gin in it. When there's really anything to say folks talk it right out loud, as a rule.

"That's quaint!" Betty exclaimed. "Positively quaint. And so wise! I shall not be content now until people are talking out loud."

"Really you know, I've never taken Teddy on," Joanna reminded Lady Betty—"But I might at any time."

Joanna rang for the butler and ordered tea. "May we have it served inside?" Lady Weymouth asked. "Some place where Brandon, whom I saw just now with Yvonne and Mr. Willmore over there on the lawn, or the others won't pop up to us. I've really something to say, you know."

While they waited for the maid to wheel up her tray and arrange the service, Joanna proffered Lady Weymouth a cigarette. For her own she found, on a table, an exquisite new holder that Kenilworth had sent her the night before. She had others set with emeralds or rubies. This one was of bamboo in which some Chinese workman had fixed tiny bits of

camphor jade. "How gorgeous!" Lady Betty cried. "Trust Roddy Kenilworth to search the ends of the earth to sate the whims of his lady loves."

She was instantly mindful of that slip of the plural—his lady loves. And, being an English woman, she was never at a loss to turn her own slips into an advantage.

"I'm sorry I said that, my dear," she said gently. "But it is just as well, perhaps, because it will open my way. I want to talk to you about the kind of love that is spoken of in the plural." Joanna glanced at her sharply. This was a new Lady Weymouth.

"Or, it may be that it is love that isn't plural I will begin about," Lady Betty went on, after a moment's contemplation of the smoke that curled lazily from her lips. "It's about Teddy, you know. Teddy and you, dear. Teddy's an awful ass, I know, and he's kissed the hem of a thousand garments when he should have stopped at the fingers. But he's always said that no woman is ever approached by a man she doesn't beckon to, and I'm sure he ought to know."

Again she waited to watch the nebulous trail of the smoke wraith that lifted from her cigarette. Joanna's jade and bamboo holder was poised midway between her lips and the table. The brown eyes had become ivory black. Her lids were drawn close, until they shaped into two straight lines. "You mean," she said, "you wan me to stop beckoning?"

Lady Betty was so startled that her cigarette slipped from her fingers to the floor. A maid appeared out of her forgotten proximity and recovered it. Lady Betty did not see the hand that held the retrieved tobacco.

"We mustn't make it a skirmish, my dear," she said to the girl who looked her full in the eyes. "I'm not come as a wife with a bargain to propose to her husband's mistress. I'm just Betty Weymouth dropped in to tea to ask her friend, the Golden Girl, if she won't be chummy and generous and let a good chap down—let him down easily, but let him down. He loves you, dear, and he wants you. I've always said that there wasn't a reason in the world any man oughtn't to have any woman he wanted—if she'd let him have her. That's gone for my own brother, too. But he wants you for keeps. That's different, isn't it?"

"Yes, it's different," Joanna agreed. "Women are so free to be had these days, that it's strange any man would want one—for keeps. And you think I'm not the kind he ought to have in that way?"

Lady Betty smiled, and reached for a new cigarette. "My dear, you are so unexpected," she exclaimed brightly. "One plans a speech, or a sentiment, and you twist it into something that doesn't sound right at all and hurl it back before it's given." She was earnest again. "I mean only that it wouldn't be fair to me, my brother, to our family, and least of all to you, dear girl, if you married Teddy. It would be hell for you, in fact. And, worse than everything

else, it would be hell for him. I love my brother, Joanna. He's a good sort. Throw him over, won't you, like a good girl?"

"Really, you know, I've never taken him on," Joanna reminded Lady Betty, and then added: "But I might, most any time. As you say, he's a good sort. And I like him tremendously. He's asked me to marry him, you know, and that's made him fearfully interesting to me. You must tell me why—" She stopped. With her eyes she signaled the maid to serve the brandy and soda. Neither woman spoke while the ice was served and the mixture made. Then Joanna asked:

"Will you tell me why I am not worthy of your brother? He knows me. You don't. You and I are common birds of prey seeking the same game. You hunt in your way, I in mine. Your thrill may be different than mine, but we're women—or, at least, if you are a woman, I'm a girl, which is the same thing. It may, or it may not be, that I shall want Lord Teddy. Why not?"

"A Dorminster always has women," the other woman returned, "and he always puts them aside for a wife. The wife must be clean, and good. Are you both, my dear? You're modern, you know. You're beautiful and lovely, and, I think, honest. But you're all body. I'm all body, too, but I haven't the nerve that you have. You're not ashamed of it. A Dorminster must be ashamed of it. It's a Dorminster convention. Surely I won't have to say any more."

Mrs. L. M. Brown, Walton, N.S., says:—"I cannot recommend Baby's Own Tablets too highly. I have found them invaluable for the ailments of little ones." Mrs. Brown's testimony is the same as that of thousands of other mothers who have used the Tablets. To use them once is a sure guarantee that they will always be kept in the home as long as there are babies or young children to be cared for. The Tablets are a laxative—mild but thorough in action—which never fail to regulate the stomach and bowels; relieve constipation and indigestion; break up colds and simple fevers and make the dreaded teething period easy. In fact you banish all the minor ills from which little ones suffer. The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

## Church Announcements

### EVANGELICAL NOTES.

Three subjects, "Vanity Fair," "Doubting Castle," and "Giant Despair" will be combined in the next Sunday evening sermon. Then there are three more subjects in the series as follows: "The Land of Beulah," "The River of Death," and "The Celestial City." Everybody is especially invited to avail themselves of the practical helpfulness offered for the Christian life by these "Pilgrimage" sermons especially those listed here.

Mr. and Mrs. H. Reiber, M. B. Clemens and the pastor represented the Evangelical Church at the Prohibition Convention in Calgary last Thursday and Friday. Messrs Reiber and Clemens were sent as delegates on behalf of the Sunday School.

The Olds-Crossfield District Ministerial Association held their monthly meeting in Olds last Monday. Dr. Kerby, Principal of Mount Royal College, Calgary, was the speaker of the occasion. The March meeting will convene in Didsbury at which Rev. L. H. Warner, Superintendent of North-West Missions, Evangelical Church, is expected to address the association.

The Young People's Missionary Circle met at the home of their leader, Mrs. J. V. Berscht, last Monday evening. This meeting took the form of a "Mother and Daughter" gathering. 15 couples were in attendance, i.e. 30 in all.

After the regular business was over, a very pleasing and helpful program was rendered by the girls of the circle in honor of the mothers. The main feature of the program was a dialogue entitled "We have caught the Vision." Thus a very profitable evening was spent in the cultivation of the missionary spirit among the girls and their mothers while in fellowship together.

## KNOX AND WESTCOTT UNITED CHURCH.

The last Sunday in February is to be given over to a study of the Gospel according to St Matthew. Fifty copies have been procured for the services, but it would be better for each one to bring a Bible or Testament, so that markings may be made for reference. If a blackboard of sufficient size can be procured, this will be used. Do not fail to be present. It is safe to say that you have not heard a presentation like this before, and to miss it would be a real loss.

Rev. A. E. Hayes is attending Presbytery this week at Red Deer.

The Ladies' Aid are to meet at the Manse, Wednesday, March 2nd at three p.m.

### Lone Pine Hall, Jutland.

Services in connection with the United Church will be held at 3 p.m. Sunday. Sunday school 2 p.m.

### LUTHERAN CHURCH.

In view of the fact that the winter Conference of the Walther League will be held in Calgary, from Friday to Sunday afternoon there will be no German services at Westcott, Sunday morning. English evening services, as usual, will be held at 8:00 o'clock. On the basis of Jonah 4, the pastor will speak on "The offence of the Christian taken at the mercy of God." A cordial welcome awaits all strangers and visitors.
